- 

## Skills

I am a self-taught programmer since 2017 with experience in Javascript, particularly using the p5.js library, with a primary focus on creating small games, and simulations. Most of my projects are displayed on my website: <https://henryty88.github.io/>. In addition to Javascript, I also have experience with Python, Swift (from my App Development class) and Java (for the AP Computer Science test).
